Research Project Periodic Log Entry Form

Project ID = 25-26J-395

Student ID = IT22137128

Name = Wijewantha H.D.C.

Individual component: Spare parts life cycle forecasting.

Summary of RP work carried out during the Reporting Period

Date	RP Work
15/08/2025	We have arranged a meeting to discuss about datasets and what are the parameters each member want, because Walpola t.h.s one of our group member had a chance to discuss about this with a spare part company, then she can ask the ability to get that data.
16/08/2025	After one of our team member had that discussion, we arranged another meeting to discuss about the accessibility of the datasets and parameters we can access. So by that we had an idea about the dataset we can have.
19/08/2025	Started the report writings.
20/08/2025	Done a discussion with our team members to talk about the tech stacks that we wish to use.
23/08/2025	Read some online resources to complete the research document.

29th Aug - 14th Sep.

Date

RP work

29/08/2025

had a group discussion with group members to plan about presentation.

31/08/2025

Had a group meeting to discuss about datasets and parameters that we want.

02/09/2025

Started creating presentation slides.

04/09/2025

Finalized
Finished creating presentation slides

05/09/2025

Edit the presentation Introduction Video.

06/09/2025

Had a meeting and practice for the research presentation.

09/09/2025

gather some informations related to my Component according to research pannel.

12/09/2025

Finalize the data related documentations to have datasets from the company.
